Sum of subscribers by Youtuber

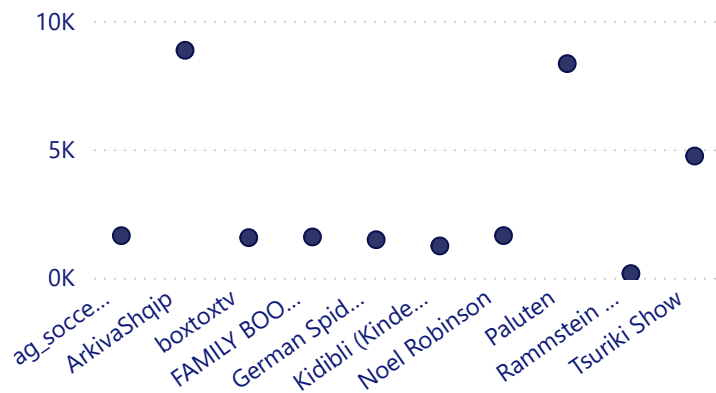

Average of video views by Youtuber

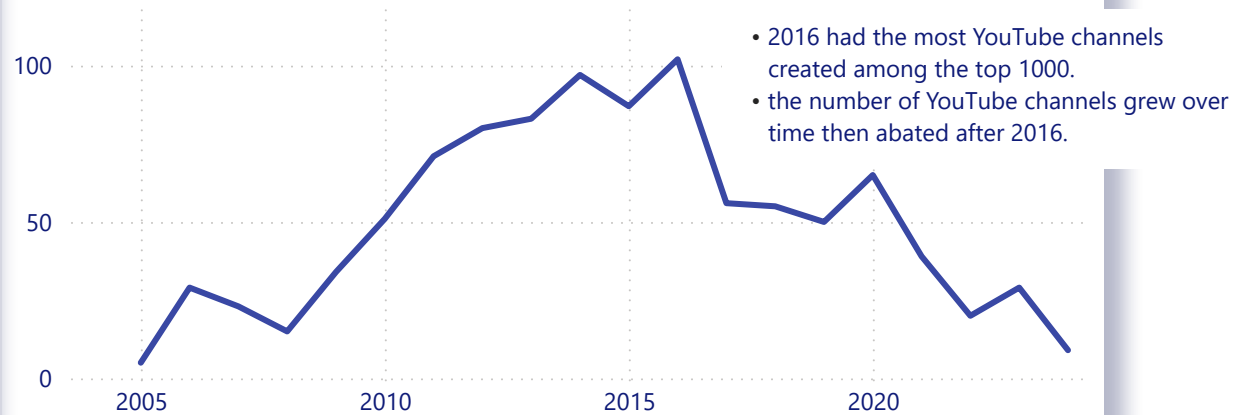

Average of subscribers by category

Sum of video count and Sum of video views by Youtuber

Count of Youtuber by started

Comments

- Five Youtubers among the top10 subscribers were also featured in the top10 most-viewed channels showing a correlation between the two.
- Some of the Youtubers have a high video views but low video counts. This shows that the views do not depend on the number of videos released but the video's content.
